Teacher

What was your favorite subject when you were a student at St. Charles?

My absolute favorite subject at St. Charles was Religion. I had amazing teachers!

Name one thing you wish would come back into fashion.

I feel like anything goes these days, when it comes to fashion. So just for fun, I will go with big crazy 80s hair-dos...only because they are hilarious and make me smile.

What celebrity would you like to meet at Caribou for a cup of coffee?

I think Betty White would be a lot of fun to meet for coffee!

What is your go-to dance move?

The "running man"!

Who do you admire most?

There are so many people in my life who I admire...but my parents take the cake. They grew up in big families with not a whole lot, but they learned to work hard. They got married young and raised 5 children with so much love and patience. Growing up, they made many sacrifices to send us to the best schools (St Charles being the 1st!). They didn't believe in spoiling us with things, but instead, love. They continue to be there for all 5 of us kids and 15 grandchildren. Above all, they taught through example how to love unconditionally and how to forgive always.
